CAREER OBJECTIVE

Cybersecurity Analyst with hands-on experience in security monitoring, threat detection, vulnerability assessment, and incident response. Skilled in SIEM tools, endpoint security, and penetration testing fundamentals. Seeking a Cybersecurity Analyst role where I can actively monitor threats and learn from senior security analysts in a real-time security operations environment.

TECHNICAL SKILLS

Vulnerability Management	Vulnerability Assessment, OWASP Top 10
SIEM & Log Analysis	Splunk, Wazuh, Log Correlation, Event Analysis
Security Tools	Kali Linux, Nmap, Burp Suite, Metasploit, Wireshark, Nessus
Operating Systems	Windows, Kali Linux
Programming & Scripting	Python, Bash
Cybersecurity Platforms	HackTheBox and Tryhackme

EDUCATION

Government College of Engineering Thanjavur B.E. – Electronics and Communication Engineering	Nov 2022 – Present
--	--------------------

PROJECTS

Hands-On SOC Experience (Labs / Home Setup)

- Built a **Wazuh SIEM** lab to monitor Windows & Linux endpoints; analysed security alerts using **MITRE ATT&CK**
- Detected phishing attempts using header analysis & **VirusTotal** lookup
- Investigated brute-force attempts in Windows logs

Hands-On VAPT Experience (Labs / Home Setup)

- Scanned and Analysed Vulnerable Web application using **Nessus** and **Metasploit** tool.
- Completed some **PortSwigger** Web Application Security Academy Labs.

PRACTICAL EXPERIENCE

Completed Labs on TryHackMe and HackTheBox

- Gained Real World experience through labs.
- Obtained practical experience in fundamental **Offensive Security** concepts through real-world simulated environments on **HTB**.
- Acquired foundational knowledge of Blue teaming including basic incident detection and response concepts.

CERTIFICATIONS

Ethical Hacker - CISCO

Network Technician Career Path – CISCO

ACHIEVEMENTS

- Regular participant in CTF competitions and solving challenges with team or individual.
- Solving Labs regularly on learning platforms – TryHackMe, HackTheBox.

INTERESTS

- Web Application Security Testing
- Vulnerability Assessment and Penetration Testing
- SOC Operations
